MDSN Metal dowel fastening nail 9002   CE

Areas of application:

The patented mounting solution for the functional integrity. Fire proof plug-in dowel for the fixing of electrical installations according to DIN 4102-12. But for a drilling machine no tool is needed!

Installation Guide:

- Drill a 6 mm Ø hole (max. 6.3 mm!),
- Put the MDSN through a hole of the item to be fixed and push it into the drill-hole,
- Fasten at the push of a thumb.

Product details:

Content pack/box	100 / 3.900
Nail length in mm	36

Product benefits/properties:

- 60 % saving on current fix times
- Made from stainless steel
- Fire resistance tested up to 120 min

Utilising the special design of the expansion element when under tension, the fastening elements are securely retained in place and will thus withstands any working load seen in normal conditions.

But for a drilling machine no tool at all is necessary - no anchor, no screw. Fire proof plug-in dowel for the fixing of electrical installations.

Technical data:

Material	Stainless steel W-No.: 1.4310, Material thickness: 0.3 mm
Weight per piece	1,40 g
Max. reccd. load	F30: 89 N, F60: 69 N, F90: 46 N, F120: 36 N
GTIN (EAN)	9 008439 090020

Fire proof plug-in dowel for the fixing of electrical installations.
